### TRUCK & BUS REGULATION 2010 REPORTING FORM FOR STREET SWEEPERS

Fleets with two-engine street sweepers that are unable to use the electronic reporting form available at <http://www.arb.ca.gov/msprog/onrdiesel/reporting.htm> may use the following printable form to report the required vehicle information that was due March 31, 2010.

Mail completed forms to:

Truck & Bus Reporting  
7<sup>th</sup> Floor  
California Air Resources Board  
PO BOX 2815  
Sacramento, CA 95812

Include the following in your application:

- One Owner Contact Information page
- One Vehicle and Engine Information page for each vehicle being reported

## Air Resources Board

### TRUCK & BUS REGULATION 2010 REPORTING FORM FOR STREET SWEEPERS

The Truck and Bus regulation requires affected trucks and buses to meet performance requirements between 2011 and 2023. By January 1, 2023, all vehicles must have a 2010 model year engine or equivalent. For information about the regulation, go to: [www.arb.ca.gov/dieseltruck](http://www.arb.ca.gov/dieseltruck).

The regulation requires private fleets<sup>1</sup> that operate two-engine sweepers with tier 0 auxiliary engines to report information regarding their vehicle(s) to the Air Resources Board (ARB) by the March 31, 2010 deadline. Fleets that did not report by the deadline should do so as soon as possible.

Regardless of fleet size, two-engine sweepers with tier 0 auxiliary engines, 50 hp or greater, may not operate more than 450 hours annually starting January 1, 2010, until January 1, 2014, and no more than 100 hours per year thereafter. The applicable section regarding auxiliary engines can be found in section (2025)(n) of the regulation. All other vehicles in the private fleet must be reported by January 31, 2011.

By May 1, 2010, fleet owners must permanently affix or paint an SW identification label on each two-engine sweeper with a tier 0 auxiliary engine. The letters SW must be white block lettering on a black background and both letters must be at least 3 inches high on a five by eight inch background. The label must be located on both the left and right door of the vehicle and in clear view at all times.

### INSTRUCTIONS

#### Owner Contact Information

Section A - All fleet owners must fill out owner information. For fleets reporting more than one vehicle, Section A is required to be completed only once per entity.

Vehicle and Engine Information must be completed for each vehicle reported as follows:

Section B – Vehicle Information - All fleet owners must fill out this section.

Section C – Engine Information - All fleet owners must fill out this section.

Section D – Two Engine Sweepers – Complete only for two engine sweepers with tier 0 engines

Note: Please refer to the last page of this form for a listing of field names and detailed description for sections A - D.

<sup>1</sup> The propulsion engine in street sweepers owned by a public agency or utility are subject to the Public Agency and Utility Fleets Regulation and are not affected by the changes made when the Truck and Bus Regulation was approved.

# 2010 Truck & Bus Reporting Forms

## Owner Contact Information

Use these forms to report information by the March 31, 2010 deadline for fleets with two engine sweepers with tier 0 auxiliary engines

### Section A - Owner Contact Information (fill out only one per entity)

TRUCRS Identification Number (if reporting for the first time leave blank)					
Legal owner name					
Company / Agency Name			Taxpayer ID number		
Company / Agency Type (circle one) Corporation    Sole owner    Partnership    Government    Other _____					
Company/Agency street address 1		City	State	Zip	
Company/Agency street address 2			Country		
Company/Agency mailing address 1		City	State	Zip	
Company/Agency mailing address 2			Country		
Corporate parent name (if applicable)		Corporate parent tax ID number			
Corporate mailing address 1		City	State	Zip	
Corporate mailing address 2			Country		

### Name the contact for any needed clarifications with reported information

Contact name	Company name
Contact email address	Contact telephone number

### Location where the records will be kept

Street Address 1	City	State	Zip
Street Address 2		Country	

### Motor carrier identification number

US DOT	CA	PUC	Other

**I attest the information provided in this form and all attached vehicle forms are true and correct.**

Print Name of responsible person	Title of responsible person
Signature of responsible person	Date

Note: Attach a Vehicle and Engine Information page for each vehicle being reported.

# 2010 Truck & Bus Reporting Forms

## Vehicle and Engine Information

Complete one page (sections B through D) for each vehicle being reported

### Section B – Vehicle Information

Vehicle identification number (VIN)		Fleet's own vehicle identification number (optional)
Vehicle model year	Vehicle manufacturer	Vehicle model
Vehicle type		Fuel Type
License plate number	Registered State/Province	Registered Country
Type of registration (circle one)	Annual      Monthly	Special Equipment      Not registered
Current registration status? (circle one)	Active      Non-Operational	No longer in fleet      Not registered
Is the vehicle a truck-tractor (circle one)	Yes / No	
Gross vehicle weight rating of the vehicle (circle one)	14,000 to 33,000 lbs      33,001 lbs or higher	
Was the vehicle part of the fleet and registered on July 1, 2008?	Yes / No	

### Section C – Propulsion Engine Information

Engine serial number	Engine family
Engine model year	Engine manufacturer      Engine model

### Section D – Two-Engine Sweeper (Information about the auxiliary engine $\geq$ 50 hp)

Auxiliary engine tier	Model year	Engine family number
January 1, 2010 hour-meter reading if auxiliary engine is Tier 0		Hour-meter reading

The auxiliary engine of a two-engine sweeper remains subject to the portable engine reporting requirements and registration fees through applicable local air districts or through the optional statewide registration program. For more information about local air district requirements, please contact the air district where you will be operating. Contact information can be found at:

<http://www.arb.ca.gov/capcoa/roster.htm>

For more information about the Statewide Portable Equipment Registration Program (PERP) reporting, please see the PERP website at: <http://www.arb.ca.gov/portable/portable.htm>.

Section A	Description
Owner Contact Information	Name and address of the legal owner, company/agency type, and if applicable, the company/agency name, taxpayer identification number, corporate parent name, corporate taxpayer identification number, and corporate mailing address.
Contact Name	Name of the individual we should contact for clarification of information provided on the reporting form. This can be someone other than the legal owner.
Location Where Records are Kept	Address where records will be kept.
Motor Carrier Identification Number	The motor carrier identification number issued by the U.S. DOT, CA, PUC, or other government entity.
<b>Section B</b>	
Vehicle Identification Number (VIN)	The vehicle identification number (VIN) should be available on the vehicle label, registration documentation, a bill of sale, or other records. A vehicles VIN is unique to that vehicle.
Fleet's own Vehicle Identification Number (optional)	An optional field for a fleet's own vehicle identifier.
Vehicle Model Year	The model year refers to the model year in which the vehicle was distributed.
Vehicle Manufacturer	The vehicle manufacturer or make. If your vehicle manufacturer is not listed, state "OTHER".
Vehicle Model	The model name or number of the vehicle.
Vehicle Type	The type of registration or license (IRP (International Registration Plan), Monthly-State Only, Annual-State Only, Special Equipment, Not Registered, PUC (Public Utilities Commission)).
License Plate Number	The license plate number is a unique number issued by the applicable governmental licensing authority when the vehicle is licensed for on-road operation.
Registered State or Province	The registration state/province is the two digit code for the state or province in which the vehicle is registered and licensed for on-road operation.
Registered Country	United States, Canada, and Mexico.
<b>Section C – Propulsion Engine</b>	
Engine Family Number	This should be available on the engine control label or from your local equipment dealer and may look like this: 4SZXL04.3FTA. This information helps determine which retrofits may be used on your equipment. For 1978 and older engines state "None".
Engine Model Year	The engine model year is determined by the annual new model production period during which the engine was produced.
Engine Manufacturer	The name of the engine manufacturer.
Engine Model	The engine model should be listed on the engine label.
<b>Section D – Auxiliary Engine</b>	
Auxiliary Engine Tier	The engine emissions tier level of the auxiliary engine (Tier 0, 1, 2, 3, or 4).
Model Year	The model year for the auxiliary engine.
Engine Family Number	This should be available on the engine label, or from your local equipment dealer. This information helps determine which retrofits may be used on your equipment. For 1978 and older engines state "None".
Hour Meter Reading	The hours of use reading taken on January 1, 2010 for Tier 0 auxiliary engines.
